**TROPICAL CYCLONE BULLETIN NO. 25**

**Tropical Storm “JOLINA” (CONSON)**

Issued at 5:00 PM, 09 September 2021

Valid for broadcast until the next bulletin at 11:00 PM today

**TROPICAL CYCLONE WIND SIGNALS IN EFFECT**

No Tropical Cyclone Wind Signal is currently in effect.

**HAZARDS AFFECTING LAND AREAS**

**Heavy Rainfall**

- In the next 24 hours, light to moderate with at times heavy rains may be experienced over Palawan, Western Visayas, and Zamboanga Peninsula. For more information, see the Weather Advisory #2 for Southwest Monsoon and the 24-Hour Public Weather Forecast issued at 11:00 AM and 4:00 PM today, respectively.
- Under these conditions, isolated to widely scattered flooding (including flash floods) and rain-induced landslides are still possible especially in areas that are highly or very highly susceptible to these hazard as identified in hazard maps.

**Severe Winds**

- Strong winds (strong breeze to near gale conditions) associated with the enhanced Southwest Monsoon will be experienced over Palawan throughout the passage of the storm.

**HAZARDS AFFECTING COASTAL WATERS**

- In the next 24 hours, Tropical Storm “JOLINA” and the enhanced Southwest Monsoon will bring rough to very rough seas (2.8 to 4.5 m) over Palawan. Sea travel is risky for small seacrafts over these waters. Mariners without the proper experience should immediately seek safe harbor. For more information, see the Gale Warning #1 issued at 5:00 PM today.
- Moderate to rough seas (1.2 to 3.1 m) will prevail over the remaining western seaboard of Luzon. Mariners of small seacrafts are advised to take precautionary measures when venturing out to sea. Inexperienced mariners should avoid navigating in these conditions.

**TRACK AND INTENSITY OUTLOOK**

- “JOLINA” is forecast to continue moving generally westward over the West Philippine Sea and exit the Philippine Area of Responsibility (PAR) this afternoon or evening.
- “JOLINA” is forecast to re-intensify and may reach severe tropical storm category this evening. Furthermore, the storm may reach typhoon category tomorrow evening or Wednesday early morning.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 PM today.
